

LABYRINTH

Following the success of the first fabric collection "La Ligne 29" launched in 2019, we are presenting a new selection of prints created by the same illustrators.

This new collection maintains the essence of La Ligne 29, but at the same time, it is entirely different. It portrays a dreamlike, mystical, and baroque universe in which classical painting blends with the tattoo world, using modern techniques.

The new collection consists of seven spectacular designs, printed on a velvety fabric that enhances their striking and vibrant colours.
